Who Qualifies?

You can purchase this plan if:

- You are not insured or eligible for benefits under a Canadian Government Health Insurance Plan
- You are currently in good health
- You have been residing in Canada for less than two years

If you are age 80 or older, you may apply for coverage by completing a medical questionnaire.

This policy is designed to provide benefits for a new sickness or injury. This policy DOES NOT provide benefits for any medical conditions that existed on or prior to the purchase of the policy, whether or not that condition had been diagnosed by a physician.

You are not covered for pre-existing medical conditions under this plan unless you receive written approval from Trent Health. To receive a medical questionnaire call your broker/agent or call or 1 800 379-9628 for a broker/agent in your area.

If you have continuously resided in Canada for two years or longer you must contact **your broker/agent** to determine your coverage options.

Temporary visits outside Canada are covered, provided you are not eligible for any government health insurance plan in the country in which you are visiting, a portion of your policy period is in Canada, and you are not a resident of the country you are visiting.

When coverage is purchased after arrival, at your intended destination, or when there is a lapse between the previous policy and new policy, no benefits will be provided for sickness-related expenses that occur within 48 hours following the date and time premium is received by **Trent Health** or its representative. This policy must be purchased in Canada.

What is Covered

In the event of an emergency, **Secure VisitorLink** will pay the reasonable and customary charges for eligible benefits, up to the maximum sum insured as you selected on the application, for any one sickness or injury, subject to a deductible of \$50.00 per policy period unless a surcharge is paid to have this deductible removed.
