Re: [REDACTED]

Dear Mr. Kriek:

**This evaluation is valid for 24 months from the date of issue**

This letter is further to your inquiry regarding certification in the Electrician trade. Based on the information and documentation received, it has been determined that your client is an International Industrial Electrician.

Please note Industrial Electrician is NOT a designated trade in Saskatchewan; therefore to be eligible to challenge the electrician examination the following criteria must be met:

- **Work 1800 hours (1 year)**
- **Complete and pass mandatory electrician upgrading training**
- **Challenge the IP Journeyperson Examination**

Please provide our office with documentation proving your client will be able to meet the above requirements.

If you have further question you may contact me at (306) 787-5996 or at the address listed above.

Yours truly

Melody Burzminski  
Trades Assessment Consultant
